CLOSE OF THE SEASON

BOXING. IZ CYCLING.

Ended in a Blase of Glory for Wheeling-The Linely's Good Record. Other Notes of the Popular Gridiron Game.

Thanksgiving Day ended the football season hereabouts, and it is practically ended elsewhere. It ended in a blaze of glory for the Wheeling team, whose string of unbroken victories was but slightly dimmed by the one lone touchdown scored against it in the series of games. This is a record of which the boys may well feel proud. The season has also been noteworthy from the fact that every game was played at home. The Thanksgiving receipts nicely balanced the losses entailed at former games. One thing was demonstrated clearly, and that was, that a Wheeling eam must have some Wheeling mem bers to draw crowds. Until this season there was seldom a Wheeling lad in the line-up. The idea in mind this season composed of the stars of Wheeling and adjacent towns, and it was a represe tative eleven that defeated Bethany. tative eleven that defeated bettany. Encouragement was shown all ambitious young players and no mistuke was made in the selection of Hoge. There may be others developed by next September, and the prospects for next season are very bright.

next season are very bright.

Football is taking hold in Wheeling slowly but surely. Its growth is due not a little to the scholastic elevens of which there are three in Wheeling. The championship was deservedly captured by the Linsips, who close the season with a brilliant record. Their two most signal victories were scored over the Wheeling high school and Trinity Hall, of Washington. To no one is the credit due more than to Lieut. B. C. Dent, principal of the school, an ardent enthusiast, who insisted on a strictly student team, and who appreciated the value of a coach.

One of the Thanksgiving incidents of One of the Thanksgiving incidents of more than ordinary interest occurred in the game at Charlottesylle, Va., between Lehigh University and the University of Virginia. Defeat for the Virginians was considered a foregone conclusion, until the famous Stomwall Brisade band, of Staunton, at the head of four hundred rooters, marched into the grounds, playing the inspiring "Dixle," as only a southern band could do. At various intervals of the game, the band would strike up Dixle, and in erved every muscle of the Virginians until they performed the unexpected by beating Lehigh, 10 to 0.

THIS NEW TREATMENT Has Cured Over Eighty Thousand Persons of Catarrh Since Sep tember Ist, 1898.

IT CURES BY INHALATION.

THE NEW METHOD

During the Past Year.

The two illustrations above show more plainly than words can express the wonderful change that has been made in the treatment of respiratory diseases during the past two years. Formerly, any sufferer from Catarrh, Asthma, Consumption or Bronchitis was at once placed under the care of some physician and dosed with all sorts of nameating drugs and tonics. Even as far back as twenty-five years ago, the doctor seemed to be aware of the fact that in order to reach these diseases inhalation must be used; and experimented with atomizers, sprays and douches in the hope of finding some germicide which could be forced into the bronchial tubes and lungs. The all these treatments proved practically useless is shown by the fact that, during the past tweny years the number of daths from catarrh and consumption alone, has increased from \$,000 to over 20,000 a year. The discovery that these terrible scourges were germ diseases did not lessen the death rate, for of all he germicides known to the profession but one of them could be inhaled into the lungs, and this, Chlorine Gas, was deadly poison. The others, carbolic acid, ammonia and crossote (liquide) must touch the germs themselves in order to destroy; consequently, could not be used with effect, as it is absolutely impossible for moisture in any form to enter the bronchial tubes and lungs. The discovery of
